

CQM recently exhibited at the Manufacturer LIVE in Coventry, one of the UK's most comprehensive best practice teaching events. This two day event is a networking and learning summit attended by manufacturing decision makers anxious and enthusiastic to learn from each other.

The event is the perfect place to learn more about your “favourite” subject or issue from organisations who have been there and worn the tee shirt.

The exhibition is arranged in zones covering a diverse range of current business issues:

- Leadership and Strategy**
- World Class Manufacturing (this is the area where CQM exhibited)**
- Skills and Productivity**
- Logistics and Supply Chain**
- Energy and Environment**
- Design and Innovation**
- IT in Manufacturing**
- Manufacturing Operations**

A diverse range of over 45 speakers from across industry sectors gave their time to pass on their experiences in developing their organisations. Included in the speaker line up was a CQM client from the food industry who provided a valuable insight into their approach to implementing lean across several sites.

Learning from others is just one of the many ways you can expand your knowledge and refine your understanding of Lean. Click on the link on our homepage to find out more about the exhibition and book next years dates into your diary now - nothing like planning ahead and taking an action!

Manufacturer LIVE 2008 is at the Ricoh Arena in Coventry on the 15th & 16th of October 2008.
