

Deborah Wild - General Manager - FCIB

Deborah's background is in senior retail management with the Thomas Cook group. Her skills stem from being able to lead a large team in a highly competitive and price sensitive market.

She works mainly in two areas – at board level to develop strategic plans for lean implementation and at all levels with performance coaching either with groups or on a one-to-one basis. She also specializes in team building and effective personnel recruitment. She has a lively and interactive style which often challenges current understanding of an issue.

She has worked across a range of industries including retail, engineering, food and service.
