

Garry Millington - Senior Consultant

Garry has over 12 years experience in Lean practices within the Automotive industry. He has excellent skills in developing and delivering training programmes designed around all principles of Lean.

Since leaving the automotive industry, Gary has been employed by 2 of the largest further education college providers based in Staffordshire. During his time working for the further education sector Gary has undertaken Rita training to a masters level, in view to keep abreast of the most up to date training programmes.

Garry prides himself on his wide range of delivery methods used; incorporating best practices to ensure any business needs are forefront of any project.
